

RESISTANCE LIST FOR GUNOVA APRONS - (EN)

If the given percentages are exceeded, resistance is limited.

Gases	Acids	Salts	Alkalis
Ammonia	Acetylsalicylic acid	Alums	Ammonia solution
Butane	Battery acid	Aluminium salts	Bleaching lye
Carbon dioxide	Formic acid 10%	Ammonium salts	Potash 25%
Coal gas	Benzoic acid	Barium salts	Caustic soda 10%
Hydrogen sulphide	Boric acid	Borax	Soap solution
Nitrogen	Hydrogen bromide - acid concentrate	Calcium salts	
Hydrogen		Chromium salts	
	Wood vinegar 6%	Ferrous salts	
	Hexafluorosilicic acid	Potassium ferricyanide	
	Maleic acid 35%	Potassium ferricyanide	
	Oxalic acid	Hydroxylamine sulphate	
	Phosphoric acid	w salts	
	Nitric acid 6.3%	Table salt	
	Hydrochloric acid 10%	Copper salts	
	Sulphuric acid 50%	Magnesium salts	
	Stearic acid	Sodium salts	
	Tartaric acid	Nickel salts	
	Citric acid	Mercury salts	
	Zinc salts	Sodium sulphide 10%	
	Zitronensäure	Silver salts	
	Zinksalze	Strontium nitrate	

Please check the suitability of PPE for its intended purpose before use. All images, product, dimension and design related information valid at the time of going to press. Subject to change and error. No model and product claims shall be accepted.
