The **high-visibility jacket 5152JA** makes its wearers highly visible even in poor light conditions. Thanks to its stretch content, it also ensures comfortable freedom of movement. The ergonomic sleeve design also ensures sufficient room for manoeuvre in all working positions. In combination with durable blended fabric, the high-visibility jacket offers safety and high wearing comfort.

SAFE THROUGH HIGH VISIBILITY

Certified according to EN ISO 20471, the high-visibility jacket offers the best visibility at night, at dusk and in generally poor visibility conditions thanks to reflective elements.

APPLICATION EXAMPLES

Outdoor work, work in poor lighting conditions, road work, work with industrial trucks, instructing vehicles, repair, towing and recovery work, work on and around railway tracks, port work, water management work.

HIGH COMFORT

The blended fabric with stretch content offers high freedom of movement and wearing comfort. We also paid attention to an ergonomic cut in the sleeve design.

AREAS OF APPLICATION

Road construction companies, industry, airports, construction sites, municipalities, waste collection

WIDE RANGE OF SIZES

The right choice of size is important when using protective workwear. It increases both wearing comfort and safety at work. The high-visibility jacket 5152JA is available in numerous sizes from 42 - 122. Other special sizes are also available on request.
