The **DA7525JA01P multinorm jacket** combines several important protective functions. In the vicinity of heat and flames, thermal hazards and certain liquid chemicals, for example, it makes working safer. Its design ensures wearing comfort with, among other things, elastic knitted wedges, ergonomically shaped sleeves and many pockets. The material blend is particularly robust and tear-resistant.

MULTI-SAFE

Certified to numerous standards, this jacket offers flame protection, antistatic finish, chemical protection, increased visibility and protection against thermal hazards all in one. They are ideally suited for use in demanding and hazardous work.

EXAMPLES OF USE

Work in areas with a high level of danger, repair work, water management work, work with chemicals, work with electricity, where there is a high level of heat radiation, contact with fire and sparks, where there is a risk of fire and explosion

COMFORTABLE DESIGN

Stretch inserts and ergonomically shaped sleeves ensure freedom of movement and a good fit. Numerous pockets support the wearer in his versatile work assignments.

AREAS OF APPLICATION

Chemical and petrochemical industry, chemical protection, gas and electricity supply, industry, maintenance and installation of electrical equipment, metal and steeling industry, welding shops

WIDE RANGE OF SIZES

The right choice of size is important when using protective workwear. It increases both comfort and safety at work. Multinorm Jacket DA7525JA01P are available in a wide range of sizes from 44 - 110. Other special sizes are also available on request.
