

Art. CS500E

-  High quality microporous CoverStar® film laminate
-  Economical protection against contamination
-  Antistatic finish

-  Elasticated draw cord for optimum adjustment and closure of hood to masks or goggles
-  Zip cover
-  Highly visible, informative chest logo
-  Elasticated waist for a comfortable fit
-  Self-stopping zip, prevents accidental opening
-  Practical 2-way zip
-  Arm and leg elastic for optimal closure to gloves and boots

PPE category

Cat. III Type 5B + 6B
Performance requirements and test methods for protective clothing against infectious agents
Protective clothing against liquid chemicals
Protective clothing - Electrostatic properties
Protective clothing - General requirements
Protective clothing against solid particles
Protective clothing against solid particles including radioactive contamination
Protective clothing against chemicals - Test methods and performance classification for materials, seams, joints and composites

Innovating your safety

Your economical protective suit - the ideal combination of functionality, mechanical resilience, protection and economy. It convinces with its versatile application possibilities and the high-quality CoverStar material. It focuses on the essentials and offers safety wherever people, production processes or products need to be protected from contamination.

A special finish makes the barrier material antistatic. The extremely smooth surface of the outer side supports the easy beading of liquids and reduces the adhesion of particles. This significantly reduces the risk of cross-contamination.

Reliable protection against biological hazards and organisms is becoming increasingly important. Especially in infection control, the excellent barrier performance of the **CoverStar®Eco** suit material against bacteria, blood and viruses is crucial and enables quiet safe working.

Choosing the right size is crucial when using protective suits. Both comfort and safety are increased by the right size selection. Therefore, the **CoverStar®Eco** is available in many selectable sizes: Available in 8 sizes from S - 5XL, other special sizes are also possible on request.

Unlike many other protective suits, **CoverStar®Eco** Eco reliably protects when working with oil and grease.

Extensive accessories: jacket, smock, trousers, hood, apron, arm cuff, overshoes, overshoes boots, paint spray gun cover and wheel cover.

Areas of application: Extremely versatile and powerful in infection control, crafts, production, municipalities, trade and the entire industry.

* Through professional risk-hazard analysis, the appropriate performance requirements and type classes must be determined in order to determine the correct protective suit for the respective application. We will be happy to advise you on the
