The **HIGH-VISIBILITY TROUSERS 5152BH** ensure good visibility even in poor light conditions. Finished with an FC finish, they also protect the trouser hem area from rising moisture. The high-visibility trousers are made of a light and elastic material mix for extra freedom of movement. Knitted inserts at the sides, at the back of the waistband and in the calf area allow for every working position and ensure an optimal fit.

## SAFE THROUGH HIGH VISIBILITY

The EN ISO 20471 certified high-visibility trousers with segmented reflective stripes ensure best visibility at night, at dusk and in general poor visibility conditions.

## APPLICATION EXAMPLES

Outdoor work, work in poor lighting conditions, road work, work with industrial trucks, instructing vehicles, repair, towing and recovery work, work on and around railway tracks, port work, water management work.

## HIGH COMFORT

The blended fabric with stretch content offers high freedom of movement and wearing comfort. The FC finish in the trouser hem area prevents moisture from rising up.

## AREAS OF APPLICATION

Road construction companies, industry, airports, construction sites, municipalities, waste collection

## WIDE RANGE OF SIZES

The right choice of size is important when using protective workwear. It increases both the wearing comfort and the safety at work. The high-visibility trousers 5152BH are available in numerous sizes from 38 - 118. Other special sizes are also available on request.
