**COVER**  
StarComfort

The protective suit with outstanding wearing comfort. This is achieved through particularly light yet high-performance CoverStar® COMFORT material in combination with a well thought-out new design. When choosing the right protective suit, comfort is a very important criterion. Especially where hard physical work is done, or at high temperatures, wearing comfort plays a decisive role. It significantly increases the important acceptance by the user.

A special finish makes the barrier material antistatic. The extremely smooth surface of the outer side supports the easy beading of liquids and reduces the adhesion of particles. This significantly reduces the of cross-contamination.

Reliable protection against biological hazardous substances and organisms is becoming increasingly important. Especially in infection control, the excellent barrier performance of CoverStar® COMFORT suit material against bacteria, blood and viruses is crucial and enables calm safe working.

Light weight is an important criterion, especially for protective clothing. That is why CoverStar® COMFORT has a low weight per unit area combined with high barrier performance. Special binding seams offer more protection. The double-layer zip cover is easy and secure to seal thanks to the continuous the double-layered zipper cover is easy and secure to close tightly. The particularly easy-to-grip zip tag enables easy handling even with protective gloves.

Unlike many other protective suits, CoverStar® COMFORT provides reliable protection when working with oil and grease.

**Extensive accessories:** jacket, gown, trousers, hood, apron, arm cuff, overshoes, overshoe boots, paint spray gun cover and wheel cover.

**Areas of application:** Extremely versatile and powerful in infection control, trades, manufacturing, municipalities, retail and throughout industry.
