The **multinorm trousers DA7525H052** combine several important protective functions. In the vicinity of heat and flames, thermal hazards from an electric arc fault and certain liquid chemicals, for example, it makes work safer. Their design ensures wearing comfort with, among other things, elastic knit wedges and many pockets. The material blend is particularly robust and tear-resistant and is additionally reinforced in the knee area.

MULTI-SAFE

The trousers, which are certified to numerous standards, offer flame protection, electrostatic dissipative properties, chemical protection, increased visibility and protection against the thermal hazards of an electric arc all in one. They are ideally suited for use in demanding and hazardous work.

EXAMPLES OF USE

Work in areas with a high level of danger, repair work, water management work, work with chemicals, work with electricity, where there is a high level of heat radiation, contact with fire and sparks, where there is a risk of fire and explosion, work on or in the vicinity of electrical systems

COMFORTABLE DESIGN

Stretch inserts ensure freedom of movement and a good fit. Numerous pockets support the wearer in his versatile work assignments.

AREAS OF APPLICATION

Chemical and petrochemical industry, chemical protection, gas and electricity supply, industry, maintenance and installation of electrical equipment, metal and steel industry, welding shops

WIDE RANGE OF SIZES

The right choice of size is important when using protective workwear. It increases both comfort and safety at work. Multinorm trousers DA7525H052 are available in a wide range of sizes from 44 - 110. Other special sizes are also available on request.
